

## Profile of Tel K. Ganesan

**Tel K. Ganesan**, the Chief Executive Officer (CEO) of VisionTech Solutions, is a highly motivated professional with strong academic background and more than 15 years of professional experience in Automotive Engineering, Manufacturing and Problem Solving in all areas of product development from concept to production.

This automotive engineer turned Information Technology solutions provider, is having hands on experience on designing and implementation of software solutions for manufacturing and project management.

He presented many papers on manufacturing and product development in international conferences. He is recipient of many awards of excellence during his 15 years experience.

As CEO of Vision, he is responsible for strategy and operation of Vision Tech Solutions, USA and India. He is heading a dedicated team of software professionals, housed in USA and India.

Prior to this responsibility, Tel worked with Daimler Chrysler Corporation for 13 years and held various positions in Automotive Product Development.

He was instrumental in implementing GREEN Y pre-emptive problem solving process within Jeep Body Organization that resulted in cost-avoidance of millions of dollars. This strategy captured the customer enthusiasm limits up-front and drove the product development process and put action plan in place to meet or exceed customer and stockholder enthusiasm.

Tel K. Ganesan with Tom LaSorda, President & CEO, DaimlerChrysler (Left)  
Peter M. Rosenfeld, Executive Vice President, Procurement & Supply, DaimlerChrysler (Second from Right)  
Steve M. Walukas, Vice President, Quality, DaimlerChrysler (Right)

Tel K. Ganesan with Eric Ridenour, Chief Operating Officer, DaimlerChrysler (Right)  
Don Dees, Vice President, Quality, DaimlerChrysler (Left)

This Daimler Chrysler Certified Black Belt holder of both proactive and reactive tracks, successfully resolved several chronic warranty issues that resulted in significant cost savings and reduction in customer warranty claims.

Tel's major involvement at Daimler Chrysler was in providing engineering solutions to pass frontal offset impact requirements required to sell vehicles in Europe. Provided engineering solution to several vehicle safety recalls.

His achievements include Optimized Product and Die Processes and part commonization solution that resulted in reduction in plant complexity and cost savings in tooling and piece cost.

Tel K.Ganesan received his MS in Mechanical Engineering from Wayne State University, Detroit, Michigan and BS in Mechanical Engineering from Anna University, India

He is an active member in Engineering Society of Detroit (ESD) and Society of Automotive Engineers (SAE)

He was past Vice-President of American Society of Engineers of Indian Origin (ASEI)

Currently, He is President of The Indus Entrepreneurs (TIE), Detroit Chapter
